

CAREER EXPLORATION 2018

Place: Honda Manufacturing of Indiana, LLC
Date: June 05th, 2018
Time: 9:00am - 2:30pm
Attendees: 20 (7 CNHS, 5 NSMS, 5 CEHS, 1 CSA NT, 1 CMS, 1 McDOWELL)

Objective:

The event was for students from 7 to 12 grade, they had the opportunity to explore future options for their professional life.

We visited Honda Manufacturing where they produce the Civic Sedan, the car that helped establish Honda's reputation for quality and efficiency, and the Honda CR-V.

The visit included a presentation by a Human Resources representative about Honda manufacturing, a production area tour and a discussion panel with the L-Dia Group, a recently formed Latino Employee Group at Honda. The panel was a useful and motivational interaction because the employees shared their personal experiences as a Latino with the students.
